Selection and qualifying criteria

Technology Fast 500 provides a ranking of the fastest-growing technology, media, telecommunications, life sciences, fintech, and energy tech companies—both public and private—in North America. Technology Fast 500 award winners for 2024 are selected based on percentage fiscal year revenue growth during the period from 2020 to 2023.

In order to be eligible for Technology Fast 500 recognition, companies must own proprietary intellectual property or proprietary technology, which must be sold to customers in products or services that contribute to a majority of the company's operating revenues. Companies must have base-year operating revenues of at least US\$50,000 and current-year operating revenues of at least US\$5 million. Additionally, companies must be in business for a minimum of four years and be headquartered within North America.

This ranking is compiled from nominations submitted directly to the Technology Fast 500 website and public company database research conducted by Deloitte LLP.

About Deloitte

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee ("DTTL"), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as "Deloitte Global") does not provide services to clients. In the United States, Deloitte refers to one or more of the US member firms of DTTL, their related entities that operate using the "Deloitte" name in the United States and their respective affiliates. Certain services may not be available to attest clients under the rules and regulations of public accounting. Please see www.deloitte.com/about to learn more about our global network of member firms.
